# Internet of Things

## Planning of homework/project

Shiva Kazemi and Jaber Babaki

Amirkabir University of Technology

# homework/project

- **Homework**

  - Hardware implementation: Individually or in groups up to 3.

  - Simulation: **ONLY** individually.

- **Project**

# Homework per each lecture

- Lecture-2

  - Electrical components

- Lecture-3

  - WiFi & RFID

- Lecture-3

  - LoRaWAN

- Lecture-5

  - Application layer protocols

- Lecture-6

  - IoT platforms

# Group Rules

- **Write the names of your group members in the following link until 7/26**

    - [group members](group members)

- **Each group has to choose a leader.**

    - Only the group leader is responsible for uploading the homework. (That's enough!)

- **All group members must participate in video preparing.**

- **We expect more quality in homework from groups!**
